On The Earth

Confusion great confusion !

God always creates confusion, but by this way, confusion gives a turn to the life! Although, looks like a boring thing, but if we see in our life, we will find that we are always confused with each and everything. We are confused in selection of toothpaste from the market, selection of relations, selection of words to speak or write, and even in the preparation of the menu for dinner or lunch. Do you remember any incidence when you had more than one option and you did not confuse to select the single best?

Humans have the opportunity to live life with a range of feelings and expressions; but till now everybody tries to find happiness and ultimately ends with pain when their wishes are not fulfilled. Why can we not

Pradip Chauhan

enjoy our failures? Why do we need only success? Is not the act sufficient to make ourselves happy? Perhaps yes, but we can't see the happiness in every moment of life and so end up in pain and sadness.

Do you know why we look for sadness? It is because sadness is also a feeling from the heart, like love and happiness. Humankind is meant to maintain feelings on the earth; the feelings are the power of humankind. The power comes with responsibility and humans have forgotten their responsibilities have come with feelings.

Section 1

Once the God decided to demolish the world and set up a new one by removing all unnecessary stuff!

He had a choice to keep single virtual thing from the world that he would be able to insert in all new creatures. He called his son and asked him to find anything on the earth that would have the ability to fight against all evils, and to get its back up.

The son of God (let's name him Prabuddh) was confused. He had no experience of anything existing on the earth; only he knew that there were many creatures on the earth. He just straightforwardly denied the God by saying that he was not capable of doing that; but the God was stubborn. He knew that Prabuddh would have to take care of all with the creation of a new earth. And Prabuddh must know and learn about the earth. God was going to demolish himself also with the world, but
